Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

My journey as a tutor began over 12 years ago while I was still in university, and it has been a deeply rewarding experience ever since. I have had the privilege of working with students from various educational backgrounds, guiding them through the intricacies of IB and IGCSE History, Latin, and English. My approach is highly personalized, focusing on identifying each student's strengths and areas for improvement.

In History, I help students make connections between past events and contemporary issues, fostering critical thinking and analytical skills. For Latin, I delve into the language's rich literary tradition, making the learning process both engaging and rigorous. My English lessons emphasize not only literary analysis but also the development of clear and effective communication skills.

Additionally, I have extensive experience in preparing students for standardized tests like the SAT and ACT. My methods combine content mastery with test-taking strategies, ensuring that students are fully prepared to achieve their best possible scores. Whether working online or in-person, my goal is to make learning a dynamic and interactive experience that inspires confidence and academic excellence.
