Tutoring Experience

My journey in education began shortly after I completed my Master's degree. Over the past decade, I've had the pleasure of teaching students across various levels, from middle school to pre-university. In Copenhagen, I worked as a history tutor at a leading private school, where I developed tailored lesson plans that not only focused on academic achievement but also on fostering a deeper understanding of historical contexts. My approach to tutoring is highly interactive, incorporating discussions, debates, and critical thinking exercises to help students engage with the material. I have extensive experience with the IB, AP, and IGCSE curricula, and I've also successfully guided students through the HAT and other history-related entrance exams. My students have consistently achieved high marks, with many securing places at top universities. Whether it's diving deep into the intricacies of 20th-century conflicts or mastering the art of essay writing, I am dedicated to helping each student reach their full potential.
